

Dear *(patient name)*,

2022 IS COMING SOON! Although, 2021 has continued to present us all with many challenges *(some positive and some negative)*, we do not want to add dental emergencies and dental disease to anyone's negative list. We want to ensure that you receive your dental health checkup and preventive cleaning before the year ends.

For those who have dental insurance policies, we want to ensure that you have received both of your dental cleanings and utilize your benefits before they expire at the end of the year. For those who do not have a dental insurance to contribute to their care, which is perfectly ok. We have options to make your dentistry affordable, so you can keep your teeth healthy for a lifetime.

Our office is thoroughly committed to prevention, proper care, and the comfort of our patients post COVID. We will make every effort to help you maximize your insurance benefits while receiving the treatment that is best for you, with the best possible materials, and the safest protocols for cleanliness.

Please call our office @ xxx-xxxx to schedule your dental checkup and/or treatment appointment day. We look forward to serving you and your family.

Sincerely,

(Dentist name)
